

CANDY BRACELET

You will need:

- ♥ a variety of fun, colorful beads
- ♥ jewelry stretch / elastic cord
- ♥ scissors

Start by measuring the cord around your wrist, adding enough on each end to tie a knot -- around 9 inches of cord.

Now the fun part ♥ choose some beads!

Once you have a collection of beads for your bracelet, tie a knot or wrap a piece of tape at the end of the cord. This way the beads won't fall off!

Start adding the beads in any order you choose, making sure to check when you have added enough to go around your wrist.

♥ *play with repetition + contrast:* try repeating an aspect of the design throughout the bracelet, while having fun with contrasting colors + textures

When you are finished adding beads and the bracelet is the right length, start a knot. Gently tighten the cord so there is a bit of tension. (This will keep your bracelet on your wrist, but careful it isn't too tight!)

While holding the first knot tightly in place, secure it with two more knots. Lastly, cut any extra cord.

Wear your bracelet with pride -- YOU made it!

Think of all the possibilities:

- ♥ necklace
- ♥ ankle bracelet
- ♥ ring (small beads)
